

January 22  
2022

Dear Rev. Lim Sek-iōng and Shi-yang Lin,

Thank you so much for the check.  
Gratitude continues to fill heart and mind  
for the years spent in Taiwan.

I follow the news reports of the amazing health practices in Taiwan, keeping the Covid virus away. Taiwan's production of chips for cars, electronics, etc. is the best in the world. I continue to pray for wisdom and courage for the people in Taiwan. These are stressful times for people around the globe.

Year 2021 has been a more difficult year with both abdominal surgery in August and Covid illness the end of December and into this month. I am recovering. Thanks be to God.

I would be happy to send some (email) family photos if you offer the appropriate email address where best to send pictures. Two of my now grown children were born in Taiwan while we were there.

May God continue to bless Taiwan and its wonderful people.

In Christ,  
Marie Sharp
